MATTER TO BE THRESHED OUT AT LATER DATE

Agreement Between Commerce Commission and Parties Interested in Rate Case.

SALT LAKE INTERESTED IN THE FINAL OUTCOME

COMMODITY RATES WILL NOT BE LOWERED UNTIL QUESTION IS FURTHER DISCUSSED.

Washington, June 9.—An agreement was reached today between the interstate commerce commission and the parties interested in the Spokane rate case, including the shipping interests and the railroads, that the phases of the question yet in controversy should be postponed until next fall, when the whole matter will be threshed out on its merits.

It was agreed that the defendant railroads should file with the commission class rates in accordance with the decision of the commission announced a few weeks, but that the commodity rates should remain as they are now until the entire question could be gone over by the commission.

The order of the commission in the Spokane case—one of the most important and far-reaching that has been tried by the body in years—originally was to have become effective on June 1. That order made material reductions in the rates from eastern points to Spokane, but it proved to be unsatisfactory to practically everybody interested.

Many Different Interests.

The Harriman lines made application to the commission to be relieved of the rates prescribed by the commission in its order, because the route to Spokane from Chicago by those lines was approximately 460 miles further than by the Northern Pacific and Great Northern. This application was granted temporarily.

Neither Side Ready.

Neither side was prepared to proceed. It was agreed the railroads should file tariffs covering Spokane class rates according to the order of the commission, but that the whole matter of the commodity rates should go over until next fall. In effect, this means that all of the defendant railroads, including the Harriman lines, will make the commission's class rate to Spokane effective by July 1.

WILEY SUSTAINED.

Atlantic City, N. J., June 9.—The American Medical association, through its house of delegates, went on record today as opposed to the use of benzene of soda, or any other preservative, in food products. The resolution will be taken up by the association at its annual meeting in Atlantic City, June 10.

VERDICT FOR DEFENSE.

Boston, June 9.—The verdict for the defense was given in the supreme court today in the libel suit of former Judge H. D. Dewey against five members of the Good Government association, who were charged with libeling him in an article published in the Boston Herald.

TAX ON EARNINGS OF CORPORATIONS PROVES UNPOPULAR IN THE SENATE

Washington, June 9.—The senate was canvassed today to determine what would be the fate of a proposition to place a tax on net earnings of corporations for a substitute for an income tax. It was developed there is an overwhelming sentiment in opposition to such a plan. Practically all of those opposed to the income tax idea are against the corporation tax, and the supporters of the income tax refuse absolutely to be sidetracked from the principle for which they are contending.

EXCLUSIVE OVER BLACK HAND

Gang Organized in Many Cities and Towns in the Buckeye State.

SEVERAL ITALIANS NOW UNDER ARREST

INCriminating LETTERS FOUND —"SOCIETY OF THE BANANA" IS UNEARTHED.

Marion, O., June 9.—United States Secret Service Agent J. E. Oldfield, who arrested Sam Lima, a fruit merchant here yesterday as a leader of an Italian Black Hand society, has gone to Columbus, taking with him a trunk full of incriminating letters found in Lima's store. Some of the letters, all written in Italian, were decorated with skull and crossbones. Others were prepared with neatly drawn bleeding hearts pierced by daggers. More of the letters contained different designs of threatening insignia of black hand mystery.

Cincinnati, June 9.—Revelations in the extortion, plotting and murder by the Black Hand as uncovered today by post-office inspectors from the Cincinnati office, show conclusively that the gang in Columbus, Marion, Dennison, Bellefontaine and other Ohio towns were organized along the same lines as the Black Hand, but with a much more thorough system of concealment. It is now known that the Ohio Black Hand or the Society of the Banana, as its members style themselves, had a branch in Pittsburgh, Pa., one in Chicago, and a line that extended to South Dakota. Regular meetings were held and the money obtained by extortion was distributed to various divisions in the country and sent to relatives in Italy for safe keeping.

Believe They Have Proof.

"We have found what I believe to be certain proof that the Black Hand outrages, at least in the middle west, were committed by a well organized society with grips and passwords and that they are not simply sporadic cases of individual extortion," said Chief Postoffice Inspector Frohman.

Arrested on Suspicion.

Cleveland, O., June 9.—Antonio and Joseph Musso, brothers, and proprietors of a commission house, were arrested here tonight on the suspicion that they are members of the Black Hand.

Taken to Toledo.

Toledo, O., June 9.—Deputy United States Marshal Wagner and Owens arrived here tonight from Marion in charge of three alleged Black Hand operators, Salvatore Lima, 32; Salvatore Rizzo, 32; and Joseph Rizzo, 32.

THE "UNWRITTEN LAW."

Kansas City, June 9.—Leon H. Brady, civil engineer, was acquitted tonight in the charge of killing Joseph Flanagan in an apartment house here last March. His plea was self-defense under the unwritten law. Brady charged that his wife had been the recipient of unwelcome attentions from Flanagan.

IDAHO MAN WELL UP.

West Point, N. Y., June 9.—Stuart Godfrey of Milford, Mass., will be graduated from West Point today. He is the first member of the graduating class who will enter the engineers corps after Flanagan.

postpone action. It is expected that Senator Bailey will protest vigorously against this delay.

In view of the short time that remains before the date popularly fixed in the public mind for adjournment of the present session, some of the income tax advocates are not inclined to insist upon a vote at the present session. If the proposition be referred to the judiciary committee with instructions to report to the senate early in the next regular session.

A Happy Family.

CALHOUN IN TRIAL CYRUS E. DALLIN FIVE HUNDRED HEARING CLOSE HIGHLY INTERESTED FEEL EACH CHINK

Evidence of the State Will Be Completed Today—Defense Likely to Rest.

San Francisco, June 9.—Definite announcement relating to the end of the trial of Patrick Calhoun, which has already extended over a period of nearly five months, was made today when Assistant District Attorney Francis J. Heney stated that the case of the people was virtually completed and would be closed tomorrow with the submission of fragmentary testimony.

Whether or not the defense will offer any testimony is doubtful. The attorneys for Calhoun declined to make any statement tonight, and predictions based upon the three trials of T. R. Ford, an official of the United Railroads, who was tried on a similar charge, were in support of the theory that no witnesses would be called.

ONLY THE NECESSARY ACRES WITHDRAWN

(Special to The Herald.)

Washington, June 9.—Secretary Ballinger has withdrawn temporarily from entry as a power site four hundred acres of land on Gray Bull river, Wyoming. This withdrawal is in accordance with the policy which Secretary Ballinger has adopted of withdrawing for power site purposes, pending legislation making the withdrawal permanent, the minimum acreage required. It is in noticeable contrast to the policy pursued by Secretary Gifford, who withdrew the entire area for several miles bordering streams on which power sites were supposed to exist in some instances the withdrawn streams alone one stream aggregating five hundred thousand acres.

SIGNAL HONORS FOR THE WRIGHT BROTHERS

Washington, June 9.—Wilbur and Orville Wright of Dayton, O., the aeroplane inventors, will be showered with unusual honors in the nation's capital tomorrow.

CONFEDERATE VETERANS.

Memphis, Tenn., June 9.—After reflecting General Clement A. Evans, commander-in-chief, over his protest, and selecting Mobile, Ala., as the next place of rendezvous, the Confederate Veterans adjourned their business meeting tonight. The parade will be held tomorrow and will close the reunion.

GOULD DIVORCE CASE.

New York, June 9.—Owing to the presence on the calendar of the supreme court of a number of undefended divorce actions, Justice Greenbaum today put over the suit for separation brought by Katherine Clemons Gould against her husband, Howard Gould, although attorneys for both sides announced that they were ready to proceed.

Native of Salt Lake Received Gold Medal at This Year's Paris Salon.

(Special to The Herald.)

Boston, Mass., June 9.—Cyrus E. Dallin, the Boston sculptor, a native of Salt Lake City, Utah, has been signally honored in this year's salon in Paris by receiving a gold medal. The work he exhibited there is "The Appeal to the Great Spirit," a massive piece, which was first shown at the exhibition of American sculpture held in Baltimore in April, 1908, under the auspices of the Municipal Art Society of New York. It is the latest of Mr. Dallin's remarkable Indian studies, and he himself regards it as his masterpiece. Of it, when on exhibition in Baltimore, a critic wrote: "Gravely modeled, well expressed and powerfully dramatic, an equestrian statue in which horse and rider are one—an Indian of fact, not of fancy."

BRAKEMAN KILLS A TRAMP

Tragedy in a Box Car in Eastern Utah—Dead Man Pulled a Gun on the Trainman.

(Special to The Herald.)

Green River, Utah, June 9.—K. A. Kay, brakeman on an extra freight train, shot and killed a tramp in a box car near Woodside this afternoon in self-defense. The tramp pulled a gun on the brakeman and Kay shot him. Two other tramps who were in the same car at the time of the shooting are being held as witnesses and will be taken to jail. The body of the dead man was left at Woodside, and Deputy Sheriff E. J. Cook of Green River was notified to take charge of the same.

FLOODS IN EASTERN UTAH.

(Special to The Herald.)

Green River, Utah, June 9.—Green river registers seven inches above the highest known water mark for twenty years, and is still rising. Old settlers look for a further rise of two to three feet. Much damage already done to bottom lands.

MINER SUFFOCATED.

Missoula, Mont., June 9.—A Missoulian miner, who was working in a cave in the morning mine by a cave-in, recovered his lifeless body today. It was thought probable that the imprisoned miner might be alive and shifts of men were kept at work constantly until the cave-in was opened. Lind had apparently perished from suffocation.

INTERESTED IN CHINA.

New York, June 9.—To investigate what opportunities are open to American finance in developing China several prominent financial houses and banking institutions of the United States shortly will send an agent to the Orient. Announcement was made here today of the formation of a group of such houses for the purpose indicated, among them being J. P. Morgan & Co. and Kuhn, Loeb & Co.

Smugglers Who Brought Chinese in From Mexico on Trial at Chicago.

Chicago, June 9.—Defendants in one of the greatest conspiracies to smuggle Chinese into this country with which the government ever has dealt were placed on trial here today before United States District Judge Landis. Eight men were indicted as the result of the activity of government agents.

Those actually brought before the bar today were Bob Leung, a well-to-do Chinese merchant of El Paso, and Jose Parra and Carlos Seveda, Mexicans. John M. Yanner, a dining car cook, who assisted in transporting the aliens, will be a witness for the prosecution.

ST. LOUIS ALDERMEN CHEATERS OF CHARITY

Chicago, June 9.—Alderman John Burns declared that the members of the house of delegates of St. Louis are cheaters of charity and unfair sportsmen, and therefore, the Chicago council should not play baseball with them. He said so last night at the meeting of the council, and wanted an invitation from the St. Louis body to play two games of ball this summer to go unnoticed.

OUT OF PUBLIC SERVICE.

Washington, June 9.—Algermon Sartoris, secretary of the American legation to Guatemala, has resigned. The cause is given as ill health. He is a grandson of the late President Grant. That there may have been other reasons than ill health for the resignation was strongly intimated tonight. The Times is authority for the statement that while he was on his leave in Paris recently he received from the department, in response to a request for extension of leave, a curt message informing him that his resignation would be most acceptable.

DEEPEST FLOODS

Large District Southwest Inundated Suddenly by Break in the Tenth South Canal Near Jordan River.

Several Beautiful Residences Among Those Completely Surrounded by Water—Children Rescued From Peril.

According to old residents in the flooded district near the Jordan the solution of the situation lies in the closing out of the surplus canal. This canal was built twenty-five years ago and runs from Twelfth South and the river directly to the lake. At the time it was constructed the water was nearly as destructive as it is now, but this canal diverted the excess water from the river before it could do damage.

The canal at present only carries about one-fourth the water that it was designed to carry and it would be cleaned out and reconstructed it is thought that it would not only prevent the flooding conditions in the southwest corner of the city, but that it would also facilitate the drainage of the City Creek channel on North Temple street by lowering the level of the Jordan. It is said that one-sixth of the water in the river could be diverted into the surplus canal, and this would relieve all the streams from Twelfth South to the mouth of the river.

Wake Up Surrounded.

When the residents of this section retired Tuesday evening they felt perfectly secure, but on arising they found that their homes were completely surrounded and in many cases there was a foot of water on the floors or in the basements. The damage done in such places is great and some of the homes will have to be abandoned permanently, it is said.

Beautiful Homes Isolated.

Along Eighth West between Ninth and Tenth South streets are a number of beautiful residences which are isolated by the water, and among them are the homes of Joseph H. Cannon, Joseph A. Silver, Judge H. S. Tanner, Preston Cannon, Arnold G. Glauque, Capt. Cannon, John A. Silver and others. The Glaue family had to desert its home and the families of Joseph J. Cannon, A. H. Cannon, John A. Silver and others, who are located in this district seven families have had to move to other residences. The Glaue family is under a foot of water. All of these families had some of their valued gardens, which have been ruined.

Water Four Feet Deep.

The residence of K. H. House, 325 Court street, is surrounded by four feet of water. Many other houses are similarly isolated. The occupants were seen leaving their homes from time to time yesterday, either on rudely constructed rafts or wading through the water hip-deep carrying bedclothes on their heads. Children and babies were delivered to places of safety by men in hip boots, and Policeman Johnson, responding to a call, rescued a child from a table with the water up to his neck. The house hereabouts is devoted to pasturing. During the night the cattle stampeded, tearing down fences and causing considerable damage to the section nearer the city. The Lucerne fields and gardens have been destroyed and the lawns around the residences ruined. It is estimated that nearly 400 chickens which were locked in coops were drowned. The coops are completely submerged.

Drainage Difficult Task.

There is no immediate relief in sight for the residents of this district. The county has a force of men at work trying to control the troublesome Mill creek waters, which caused the break in the canal. The water is still rising, and the water level of the Tenth South canal is rushing into this section, and throughout the whole district residents are digging ditches to seek their homes and property. Under the direction of Lewis M. Cannon, a number of men who volunteered their services have constructed a ditch on the south side of the San Pedro tracks to the river. This is taking out a large amount of water and it will serve to drain the flooded area when the inlets are checked. Channels for the water have been constructed to the Ninth South street, which greatly relieve the situation. Although it is expected to have the Mill creek water and the canal under control today, the drainage of the district will be a perplexing problem and it will take several days to accomplish it.

Officials Discuss Flood.

Mayor Bransford, Jake T. Raleigh, street supervisor and watermaster; Councilman George H. Raybould, chairman of the city council street committee, and Councilman L. E. Hall, appeared before the board of public works yesterday to discuss the flood situation. The city's representatives asked that the county take care of the waters of Mill creek.

TEST WILL BE MADE.

New York, June 9.—Ten thousand public school children of New York City will be examined by the health authorities in a general endeavor to ascertain whether there is any basis for the assertion made by Dr. T. C. Nichols before the American Medical association at Atlantic City that 73 per cent of the pupils are victims of the alcohol habit.

COLORADO FLOODS.

Grand Junction, Colo., June 9.—The Gunnison and Grand rivers rose no higher today, enabling frantic workers to repair damage already done by the floods and to prepare for another rise should it come. During the day the water broke through Grand Junction was torn out by the Grand river and many farms flooded. Many dams and bridges are reported in precarious condition.

LOCK OF CANADIAN CANAL WRECKED BY CARELESSNESS OF AN ENGINEER

Sault Ste Marie, Mich., June 9.—With all the weight of Lake Superior behind it an ungoverned torrent of water rushes tonight through the \$4,000,000 Canadian canal, built to carry vessels around the impassable rapids of the St. Mary's river. The entire fall of approximately twenty feet is concentrated in the lock which was wrecked today when the steamer Perry G. Walker of the Great Lakes fleet rammed her bow through the lower gate. The canal showed within its walls this evening a tremendous spectacle, including two waterfalls and a giant whirlpool.

The ore-laden steamer Crescent City, of the Pittsburgh Steamship company, which was just entering the locks from Lake Superior when the accident occurred, was swept down stream like a feather. She overtook the Assinibola and struck the latter two glancing blows after having a great hog-tie on her side as she swept past the broken lower gate. Tugs caught her and towed her to the American side, where she settled to the bottom.

The loss to the Canadian government will probably reach \$250,000 and the damage to the Crescent City is estimated at \$100,000. The damage to the Walker and Assinibola was comparatively light. Captain Mosher of the steamer Walker declares that the accident was caused by his engineer throwing his lever to "full speed ahead" on the captain's signal to "back."

A power launch loaded with people just about to enter the lock when the disaster occurred narrowly escaped being caught in the current and whirled to destruction.
